

Universitätsklinikum
Hamburg-Eppendorf

Cognitive Neuroscience Seminar

Summer Semester 2011

UKE Campus, W30 Seminar Room

Monday, April 4
17 - 18:30

Francesco Pavani
University of Trento, Rovereto, Italy
Center for Mind/Brain Sciences (CIMeC)

Whose side are you on? On the misattribution of touches between bodies and body sides

Monday, April 11
17 - 18:30

Irene Tracey
University of Oxford, UK
Oxford Centre for Functional MRI of the Brain

Imaging pain and relief in the human brain

Monday, May 2
14:30 - 15:30

Fabrizio Benedetti
University of Turin Medical School, Italy
Department of Neuroscience

Recent insights into the placebo effect: the role of learning

Monday, May 9
17 - 18:30

Henrik Ehrsson
Karolinska Institute, Stockholm, Sweden
Department of Neuroscience

How we come to experience that we own our body

Monday, May 16
17 - 18:30

Torkel Klingberg
Karolinska Institute, Stockholm, Sweden
Department of Neuroscience

Computerized Training of Working Memory in Children with ADHD

Monday, May 23
17 - 18:30

Gerd Kempermann
Technical University Dresden, Germany
Center for Regenerative Therapies Dresden

Regulation and function of adult hippocampal neurogenesis

- Monday, May 30
17 - 18:30
Niko Troje
Queen's University, Ontario, Canada
Vision and Behavioural Sciences
Depth ambiguity and perceptual biases in biological motion perception
- Monday, June 6
17 - 18:30
Christian Lohr
University of Hamburg, Germany
Institute of Zoology
Extrasynaptic neuron-glia communication: The how and why
- Thursday, June 16
16:15 - 17:45
Stefan Schweinberger
Friedrich Schiller University of Jena, Germany
Department of General Psychology and Cognitive Neuroscience
Multisensory face-voice integration in person recognition
- Monday, June 20
17 - 18:30
Markus Bauer
University College London, UK
Wellcome Trust Centre for Neuroimaging
Neural oscillations in sensory cortex: Attention, Decision making and Neuromodulation
- Monday, June 27
17 - 18:30
Dharshan Kumaran
University College London, UK
Institute of Cognitive Neuroscience
A new perspective on the role of the hippocampus in generalization and inference
- Monday, July 4
17 - 18:30
Christian Doeller
Radboud University Nijmegen, The Netherlands
Donders Institute for Brain, Cognition and Behaviour
Spatial representation and memory formation
- Monday, July 11
17 - 18:30
ERIKA Haus
UKE, W29
Steven Hillyard
University of California, San Diego, US
ERP lab
Mind-Brain Lecture
