## Lectures in Neuroscience

Winter Semester 2010/2011  
UKE Campus, W30 Seminar Room

- Monday, October 18      Lluís Fuentemilla  
17 - 18:30              University of Barcelona, Spain  
Cognition and Brain Plasticity Unit, Bellvitge Hospital  
*Tracking memory re-activations with MEG*
- TUESDAY, October 26**      Christian Grillon  
17 - 18:30              National Institute of Mental Health, Washington DC, USA  
*Modeling anxiety: anxious anticipation and perception*
- Monday, November 1      Lauren Atlas  
17 - 18:30              Columbia University, New York, USA  
Social, Cognitive and Affective Neuroscience Unit  
*How expectancies shape experience: Brain mediators of cue effects on perceived pain*
- Monday, November 8      Pietro Pietrini  
17 - 18:30              University of Pisa, Italy  
Laboratory of Clinical Biochemistry  
*New light on brain function from the darkness of blindness*
- WEDNES, November 17**      Hugh Garavan  
17 - 18:30              Trinity College, Dublin, Ireland  
School of Psychology and Institute of Neuroscience  
*The neurobiology of cognitive control and its role in addiction*
- Monday, November 22      Guillen Fernandez  
17 - 18:30              Radboud University, Nijmegen, Netherlands  
Donders Institute for Brain, Cognition and Behavior  
*Survival through surveillance: How stress affects amygdala-mediated vigilance*

- Monday, November 29 17 - 18:30 Jonathan Brooks  
University of Oxford, England  
PaIN Group & FMRIB Centre, John Radcliffe Hospital  
*Imaging the sub-cortical endogenous pain control networks*
- Monday, December 6 17 - 18:30 Klaus Wunderlich  
University College London, England  
Functional Imaging Laboratory  
*Value based choices: Dissociating the neural mechanisms of planning from learning*
- Monday, December 13 17 - 18:30 Dick F. Swaab  
Royal Netherlands Academy of Arts and Sciences, Amsterdam  
Netherlands Institute for Neuroscience  
*Re-activation of neurons in Alzheimer's disease*
- Monday, January 10 17 - 18:30 Stefan Wermter  
University of Hamburg, Germany  
Department of Informatics  
*Neural Knowledge Technologies*
- Monday, January 17 17 - 18:30 Stefan Treue  
Georg-August-University, Göttingen, Germany  
Department of Cognitive Neurosciences, German Primate Center  
*To see or not to see - Attentional modulation of motion processing in primate visual cortex*
- Monday, January 24 17 - 18:30 Torkel Klingberg  
Karolinska Institute, Stockholm, Sweden  
Developmental Cognitive Neuroscience  
*Training and plasticity of working memory*
- Monday, January 31 17 - 18:30 Irene Tracey  
University of Oxford, England  
Centre for fMRI of the Brain  
*Imaging pain, suffering and its relief in humans*
