## Methods in Cognitive Neuroscience

Summer Semester 2010

ESA C (Edmund-Siemers-Alle, Hörsaal C)

- |                          |                                                                                                                                                          |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Tuesday, April 6</b>  | <b>Brigitte Röder</b><br>Biological Psychology and Neuropsychology, University of Hamburg<br><i>Behavioral approaches (Neuropsychology, Development)</i> |
| <b>Tuesday, April 13</b> | <b>Christian Moll</b><br>Department of Neurophysiology and Pathophysiology, UKE<br><i>Cellular neurophysiology</i>                                       |
| <b>Tuesday, April 20</b> | <b>Hauck/Till Schneider</b><br>Department of Neurophysiology and Pathophysiology, UKE<br><i>MEG/EEG</i>                                                  |
| <b>Tuesday, April 27</b> | <b>Christian Büchel</b><br>Department for Systems Neuroscience, UKE<br><i>DTI and MRI volumetry</i>                                                      |
| <b>Tuesday, May 4</b>    | <b>Raffael Kalisch</b><br>Department for Systems Neuroscience, UKE<br><i>fMRI</i>                                                                        |
| <b>Tuesday, May 11</b>   | <b>Friedhelm Hummel</b><br>Department of Neurology, UKE<br><i>TMS</i>                                                                                    |
| <b>Tuesday, May 18</b>   | <b>Gerhard Engler</b><br>Department of Neurophysiology and Pathophysiology, UKE<br><i>Animal Studies: behavioral and physiological methods</i>           |
| <b>Tuesday, June 1</b>   | <b>Jan Gläscher</b><br>Department for Systems Neuroscience, UKE<br><i>Computational Neuroscience</i>                                                     |

**Tuesday, June 8**

**Stefan Kindler/Hans-Jürgen Kreienkamp**  
Institute of Human Genetics, UKE  
*Genetics*

**Tuesday, June 22**

**Fabio Morellini**  
Center For Molecular Neurobiology Hamburg (ZMNH), UKE  
*behavioural studies in mice*

**Tuesday, June 29**

**Matthias Gamer**  
Department for Systems Neuroscience, UKE  
*Experiments with Humans*

**Tuesday, July 6**

**Andreas von Leupoldt**  
University of Hamburg  
*Peripheral Psychophysiology*

**Tuesday, July 13**

**EXAM**
