## Seminar Epidemiologie

02. Juni 2016, 14:00  
Seminarraum 11/12, Gebäude W34, UKE

### The INDEPTH Network - potentials for research collaboration in epidemiology and clinical research

**Prof. Dr. Osman Sankoh, Accra, Ghana**

---

INDEPTH is an international Network of demographic research institutions that provides health and demographic data to enable low- and middle-income countries set health priorities and policies based on the best available evidence and to guide the cost-effective use of tools, interventions and systems to ensure and monitor progress towards national goals.

**Prof. Osman Sankoh** became the Executive Director of the INDEPTH Network in October 2007 after serving as Deputy Executive Director from mid-2006. From 2002-2006 he was responsible for the Network's scientific programme. Osman has many years of experience in health and demographic surveillance and in networking of international scientists and research institutions.

Osman Sankoh joined INDEPTH from the Institute of Public Health at the University of Heidelberg Medical School in Germany where he worked in the Section of Biostatistics and Epidemiology from December 1999 to June 2002. During that time, he collaborated with the Nouna Health Research Centre in Burkina Faso and spent several research periods in Nouna. He is a member of the Advisory Boards/Committees of several international research institutes and academic journals.
