G3	General Medicine & bloc practical training Occupational Medicine II Social Medicine Geriatrics Rehabilitation/Physical Medicine	Clinical Pharmacology / Pharmacotherapy Forensic Medicine Palliative Medicine	<input type="checkbox"/>

*Please cross 2 modules for one semester or 4 modules for two semester.

1. Optional elective course: 2nd Track module (6 ECTS)

In addition to the modules, you can attend one optional elective course (2nd Track) of two weeks and 6 ECTS per semester. If you are staying for the full academic year, you will choose the 2nd Track module in semester 2 before the start of the summer semester. The 2nd Tracks offer a scientific approach to medicine in a specific subject. They do not replace a major subject.

Would you like to attend a 2nd Track module in your first semester? Yes ___ No ___

Please choose from the following 2nd Tracks (max. 3 choices):

- The Relevance of Genetics in Prenatal, Child and Adolescent Medicine
- Surgical Anatomy and Techniques in Trauma Surgery and Orthopedics
- Digital Health
- Inflammation, Infection, Immunity
- Intercultural Competence and International Medicine
- Cardiovascular System (Cardiovascular Medicine, Cardiovascular Translation, Clinical Electrophysiology)
- Disaster Medicine
- Minimally Invasive Medicine
- Molecular and Experimental Medicine
- Brain and Mind - Fascination Neuroscience
- Practical Medicine in Obstetrics, Pediatrics and Pediatric Surgery
- Preventive Medicine
- Psychosocial Medicine and Health Services Research
- Radiological Methods in Diagnostics and Therapy
- Regenerative Medicine
- Transplantation Medicine
- Tumor Biology/Oncology
- General Medicine

Semester 1 (places upon availability):

1st choice: _____

2nd choice: _____

3rd choice: _____

2. Optional clinical clerkship

Alternatively, you can complete clinical clerkships during the lecture-free period or instead of a 2nd Track module. One week of clinical clerkships corresponds to 1.5 ECTS.
